

Semi-custom packaged rooftop units, split systems, air-cooled chillers, and water-cooled packaged units

Thermally powered and inter-operable intelligent VAV diffusers

Pumps, pump packages, booster systems, expansion tanks, air separators, and heat exchangers

Dust collectors, fume collectors, mist extractors, and replacement filters

Supply & exhaust fans, laboratory exhaust fans, and energy recovery ventilators

Air cleaning devices with zero by-product generation

Humidification systems

Laminar flow clean benches, terminal filters, and cabinet filters

Hygienic certified AHUs, heat recovery AHUs, and dehumidification units

Water-source heat pumps

Starters and variable frequency drives

Heat transfer systems for energy savings

Wall or floor mounted air conditioners and heat pumps

Air distribution and VAV terminal units

Modular air-cooled and water-cooled chillers

CTI certified cooling towers in counterflow and crossflow configurations

Control dampers, fire/smoke dampers, and louvers

Automatic controls and building management systems

Air separators and dirt separators
